

Go visit "The Huntington Library and Gardens" (www.huntington.org). YOU MUST turn in a paper with the questions below AND the sticker that they give you upon entering. ALSO, you must turn in a picture of you in front of the conservatory to receive your credit. Bring your Mt. SAC ID for student rate. IT IS NOT IN HUNTINGTON BEACH!

Questions from the Library:

- 1) Who wrote "Fowles of heaven" What is it about?
- 2) What animal is shown on the open page of Robert Hooke's micrographia.
- 3) In James Gillray's "Old Wisdom, Blinking at the Stars, Samuel Johnson is portrayed as a combination of which two animals?
- 4) What animal is displayed in John James Audobon's book, "Birds of America" How many of these books exist? How many birds are in the book?

Questions from the conservatory:

- 1) Describe the experiment by Jan Baptiste Van Helmont to see if plants eat dirt? What did he discover?
- 2) Seeds from which tree have "wings like a butterfly". Why are they described this way?
- 3) Name three orchids that have evolved to look like insects.
- 4) Describe the conditions of a bog. Name three bog plants.
- 5) Name 6 things that live in a bromeliad.
- 6) How do Orchids get pollen onto a Bee?
- 7) Describe the differences in climate in a rain forest, cloud forest, and bog.

Questions from elsewhere:

- 1) Visit at least three other places at the Huntington (give the name of the location) and state one that that you learned at each location.
