

Electronics Degree Course Flow Chart

All courses below are required for A.S. degree

No classes have strictly enforced pre-requisites. Instead our courses have 'advisories'. Use this chart as a guideline for how to sequence your courses.

Exceptions can be made to the course sequence above if necessary. Please talk to your instructor. Examples are:

- ELEC 53 and ELEC 55 can be taken in either order, but if given the option, take ELEC 53 first.
- ELEC 61 can be taken concurrently with ELEC 50A if necessary.
- ELEC 56 can be taken concurrently with ELEC 50A, ELEC 74, and/or ELEC 12 if necessary.

See mtsac.edu/electronics for the course schedule for the next 3 years!
