A goal was set for sub-teams to finish placement formulas by mid to late October 2016.</p> <p>2.3 Discussion took place regarding range of placements. If 70% of the chosen competencies are met, students will be placed in that course. Students at CSUSB self-place into courses, but they have access to detailed course information and assignments. A suggestion was made to use professional judgment to determine a range of course placement that can then be researched in follow-up studies. Another suggestion was made to test students in late fall as a trial to see if placement formulas are on track, but test availability is unclear at this time. Pilot schools currently administer new and old tests, but only old test counts in placement. A recommendation was made to contact pilot schools to look at their data.</p> <p>2.4 Next CAI Professional Development Regional Meeting is scheduled on May 12, 2016 from 10-3:30pm in San Diego and open to anyone who wishes to attend.</p> <p>2.5 Friday, May 13 is the Master Planning Summit at Mt. <p>Maria Tsai</p>	<p>distributed and discussed by SSSPAC. The old rubric placed students into ENGL1A at approximately 4%. The new rubric places students into ENGL 1A at approximately a 14-15% rate. M. Tsai reviewed each page with SSSPAC members.</p>	<p>data on website when available</p>
<p>4. Multiple Measures – Hope Theory Questions</p>	<p>4.1 Tabled</p>	<p>4.1 Hope questions will be moved to Item #2 on next agenda</p>
<p>5. Multiple Measures Data</p>	<p>5.1 From March – May 2015, 57.7% of students were taking multiple measures. From June-August 2015, 76% of students were taking multiple measures. From Decembers 2015-March 1, 2016, 80% of students were taking multiple measures. It is possible that many of these students may be taking the test at their high schools and may not have claimed their Mt. SAC accounts to access their portals in order to take the MMs. Several members of SSSPAC were highly concerned that high school students are being placed with out MMs and agreed that all students must complete MMs or the assessment process is incomplete. The following solutions were discussed: use a paper version of MMs or withhold placement results until all students have completed MMs. D. Beydler has requested a copy of CAI MM questions and is waiting for a response. There was concern that new test questions will be unable to feather out LERN 48 & 49 placements.</p> <p>5.2 RIE will need a request submitted from SSSPAC to move forward with the follow up study on AWE MMs</p>	<p>5.1 J. Ocampo will continue his efforts to set up a meeting with High School Outreach to discuss the importance of MMs.</p> <p>5.2 SSSPAC will request and RIE follow up study on AWE MMs</p>
