

Parfianka Pomegranate

Mt. San Antonio
College
Horticulture Unit

"college educated plants"

Large size red fruit is sweet with a hint of acidity. Arils are red with very small edible seeds. Vigorous upright plant dependably sets a heavy crop. Maintain at any height with summer pruning. Always receives the highest praise for overall flavor. Great for juice or fresh eating. Showy orange–red blossoms in late spring. Attracts hummingbirds. Self-fruitful. Harvest September-October.
