Re: for now we will use the honor system, starting Summer

Next steps for implementing icon with IT (goal of Winter '23) Developing a box for searching courses by Zero and Low Cost in the schedule? Gabi's idea about where to put instructions where students will see it?	RC and GQ	Need to direct procedural questions to AVPI for directive, Will low cost be the same process as zero cost.
Discussion on "First Day" and inclusive access (Webinar share out?)	MC	<p><a href="#">ASCCC Resolution</a> &amp; <a href="#">ASCCC Automatic Billing/"Inclusive Access"</a>. Strongly recommend opt in only, textbook retention is a concern (no reuse, or resale), if digital resources are to be used hopefully there will be a cost savings. Perhaps trial access.</p> <p>Does the inclusive access program enhance academic freedom by offering affordable content from a variety of sources including open educational resources (OER)?</p> <p>Does the inclusive access program provide permanent access to core content after the subscription period ends?</p> <p>Does the inclusive access program have data agreements that protect students and provide data sharing transparency with the participating school?</p> <p>Does the inclusive access program capture student data for advertising or marketing purposes?</p> <p>Does the inclusive access program include reasonably priced print options for the 10 percent of students who still need or prefer it to digital material?</p> <p>Does the inclusive access program offer fair pricing for online homework or other courseware components if offered separately?</p> <p>Does the inclusive access program keep OER content free, or does it charge for it?</p>

		Is the inclusive access program fee clearly delineated as part of the course listing alongside other similar fees such as lab fees and tuition?
