

Request for Appropriation of Funding Non-Board of Trustee Item Request

Note: All request must be submitted 6 weeks prior to event date

For Office Use Only	
Request #:	8
Date Received:	10/1/19

I. Type of Appropriation Requested (Select all that apply):

- | | Amount Requested per item |
|--|---------------------------|
| <input type="checkbox"/> Catering: (ex. Sodexo, off-campus restaurants and caterers) | \$ _____ |
| <input checked="" type="checkbox"/> Conference & Travel: (ex. Registration, transportation, lodging, meal allowance) | \$ <u>2,245.50</u> |
| <input type="checkbox"/> Food Supplies: (ex. Pre-packaged food items like chips and candy, etc.) | \$ _____ |
| <input type="checkbox"/> Supplies: (ex. Streamers, paper cups, plastic utensils, decorations, etc.) | \$ _____ |

If you are requesting funding for an Independent Contractor or Contract, you will require the Board of Trustees approval. You must complete a separate "Request for Appropriation of Funding Board of Trustee Item Request."

TOTAL AMOUNT REQUESTED: \$ 2,245.50

II. Additional Sources of Funding

Are you considering other sources of funding? (Circle one) Yes / ~~No~~

If so, please indicate the Source: _____ Amount: \$ _____

approved: \$969.50
10 persons

III. Event Information

Recognized Student Club/ Organization (RSCO) or Department: Engineering Club

Name of Event: ROctober

25 Live Reservation Reference Code: 2019 - AAGBAD

Event Location: Lucerne Dry Lake Bed, Lucerne Valley, CA

Event Date: October 12-13, 2019

Event Start to End Time: Oct 11 4PM- Oct 12 7PM

NOTE: Associated Students has the purview of requiring certain events to prove all participants to have paid their current Student Activities Fee. Fees are subject to electronic verification, via the Associated Students website.

THIS FORM IS TO BE FILED WITH YOUR FEDERAL INCOME TAX RETURN. IT IS NOT TO BE FILED SEPARATELY. IT IS NOT TO BE FILED WITH YOUR STATE INCOME TAX RETURN.

IV. Additional Information Required

Purpose of Event: A.S. seeks to enhance the student experience through activities fulfilling one of the following five priorities, please select which priority area(s) your event fulfills.

- Co-curricular engagement
- Leadership development
- Retention & transfer
- Recognition of service
- Civic engagement and advocacy

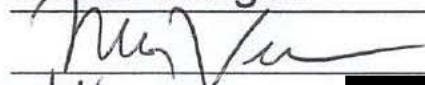

Please attach supplemental sheets to describe how your event fulfills one or more of A.S. Priority areas and a detailed Budget breakdown for the amount requested by including quotes, conference webpages, etc.

V. Funding Conditions

All groups requesting Associated Students funding are hereby notified that the event advisor (or designee) is responsible for processing all banner requisitions with approved vendors. **NOTE: Additional Fiscal Services forms, guidelines, and procedures may be required.** All event marketing, written and oral, must acknowledge Associated Students as a sponsor and include the Associated Students logo on all materials.

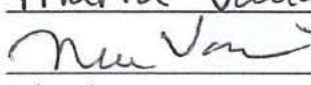

This form must be completely filled out, with signatures below, and submitted to the A.S. Administrative Specialist III at least 6 weeks prior to the event date to be considered for funding. For specific questions, please contact the Student Life Office at x4525 or email lhennings@mtsac.edu.

Purpose of Event

The purpose of attending ROCTober is for prospective rocket team members to get their Level 1 Certification. The level 1 certification proves the student's capability to work on higher power rockets, which will be required for the design and fabrication of our very own rocket to be launched at the 2020 FAR 1030 Rocket Competition.

How does it align with Associated Students' Goals?

Co-curricular Activity

Students who attend ROCTober will gain indispensable skills and knowledge on fabrication techniques, rocket anatomy and recovery systems. Students will be able to move on to higher power rockets, which will test their competency in the skills they have gained in their physics, engineering, and math classes.

Students will have the opportunity to engage with local professionals as well as youth groups and university peers that have common interests!

Appropriation for Funding - ROCTober

Engineering Club 2019-2020

ROctober

Launch Fees

*Attendance at events hosted by the Rocketry Organization of California (ROC) is **AT YOUR OWN RISK**. Insurance to cover your rocketry activities is available as a benefit of membership in either the **National Association of Rocketry** or the **Tripoli Rocketry Association**. Please note that membership in ROC does **NOT** include insurance, or **any** assumption of liability on the part of ROC. **ROC membership** allows you to fly at all of our launches without paying the daily launch fees, and a few other membership benefits. **All attendees at ROC events must check in at REGISTRATION at the launch and sign the ROC Agreement and Liability Release Form** to indicate understanding and acceptance of the risk and liability. Spectators and flyers will be given a wristband to indicate that they have registered.*

To support Scouting and other recognized youth groups in the Southern California area, the Rocketry Organization of California (ROC) hosts **ROctober** at **Lucerne Dry Lake** in Lucerne Valley, CA. **Camping** is allowed (and encouraged). Portable toilets will be provided from Friday afternoon through Sunday evening. All **standard launch equipment** is provided, just bring your rockets, motors, and launch supplies.

ROctober 2019 will be Saturday October 12 and Sunday October 13.

Launching starts at approximately 8 AM on both Saturday and Sunday, and we will have night launching on Saturday night after dark (weather permitting). All night launch rockets must have lights of some sort on board, making them clearly visible from launch to landing.

Group Leaders: Please let us know that you are coming to ROctober! Use the form on the **Youth Group Page** and someone from ROC will get back to you.

- **Individuals (non-member adults) \$30 for the weekend.** ROctober fees are included in ROC membership!
- Youth group rate \$5 per youth (under 18). Fees are for entire weekend.
- Adult (non ROC member) Leaders that Fly register separately and pay \$30 for entire weekend. **They need to ensure their group is supervised while they fly.**
- ***Apply and pre-register using the form on the Youth Group Page at least two weeks in advance. Groups that are not pre-registered pay the Regular Flyer fee for each flyer.**
- Note that associated scout groups, e.g. a Pack and a Troop from the same sponsor, count as separate groups.
- **Use of personal launch pads will not be allowed. Please use the pads and ground support equipment provided by ROC. Launching of rockets ANYWHERE other than the ROC range is not allowed nor will it be tolerated. This is a safety and liability issue.**

Gasoline

Fueled by a drop in fourth quarter gas prices and increased fuel economy, average cost for

sedans decreases 2.7 percent to 59.2 cents per mile

ORLANDO, Fla. (May 9, 2014) – AAA released the results of its annual ‘Your Driving Costs’ study today, revealing a 2.7 percent decrease in the cost to own and operate a sedan in the U.S. The average cost fell 1.64 cents to 59.2 cents per mile, or \$8,876 per year, based upon 15,000 miles of annual driving.

Additional Resources

- 2014 Your Driving Costs Brochure
- Infographic

“Despite increases in maintenance and registration fees, American motorists are experiencing an overall decrease in the cost to own and operate a vehicle,” said John Nielsen, AAA Managing Director of Automotive Engineering and Repair. “A large decrease in fuel costs, and lower tire, insurance and depreciation expenses are saving owners more than one and a half cents on every mile they drive.”

The findings of the 2014 ‘Your Driving Costs’ study include:

Based on Driving 15,000 miles annually	Small Sedan	Medium Sedan	Large Sedan	Sedan Average	SUV 4WD	Minivan
Cost Per Mile	46.4 cents	58.9 cents	72.2 cents	59.2 cents	73.6 cents	65.0 cents
Cost Per Year	\$6,957	\$8,839	\$10,831	\$8,876	\$11,039	\$9,753

In-depth findings of this year’s study, including a breakdown of specific costs by category of vehicle and various annual mileages, are contained in the ‘Your Driving Costs’ brochure which is available at select local AAA branch offices or may be downloaded at the AAA Newsroom.

Nielsen continued, “The true cost of vehicle ownership involves more than the sticker price and what you pay at the pump. Before you make any vehicle purchase, it is important to determine ownership and operational costs and compare them to your current and future financial situation.” To assist consumers in determining their individual driving costs, the AAA ‘Your Driving Costs’ brochure contains a worksheet that can be filled out and personalized for a specific area, driver and vehicle.

Fuel Costs Down more than 10 Percent

Fuel costs had the single largest percentage decrease from 2013 to 2014, declining 10.04 percent to 13 cents per mile. The average cost of regular grade fuel fell 5.96 percent, from \$3.486 to \$3.278 per gallon. At the same time, vehicle redesigns and improved power train technologies that take into account higher federal Corporate Average Fuel Economy (CAFE) standards has the effect of improving the average fuel economy of sedans used in the study. Fuel costs in the 2014 study were calculated using the national average price for regular unleaded gasoline during the fourth quarter of 2013.

Maintenance Costs Up 1.81 Percent

This year maintenance costs increased nearly two percent to 5.06 per mile on average for sedan owners. AAA’s estimates are based upon the cost to maintain a vehicle and perform needed repairs for five years and 75,000 miles, including labor expenses, replacement part prices and the purchase of an extended warranty policy. For 2014, some vehicles had lower costs due to longer service intervals or reduced labor times, while others experienced an increase in labor times and/or part prices that led to a rise in maintenance costs. AAA experts also identified an increasing number of vehicles requiring low-viscosity semi- or full-synthetic motor oils, which cost more than conventional oils but provide better fuel economy, added engine protection and allow for longer oil change intervals.

Tire Costs Decrease Three Percent

After several years of increases due rising costs for raw materials, energy and transportation, tire prices for 2014 have decreased three percent to 0.97 cents per mile. The decrease can be credited to two main factors; some redesigned sedans now come equipped with less expensive tires and some tire prices have declined.
